Dear Sir<sup>nd</sup> Brother

Your welcome letter duly received and noted. Many thanks for same. Yes I received the Numismatist a day or two after I had written you. I am thankful to you for your thoughtfulness in placing me in Nomination and I surely hope to be able to attend the Convention and if exhibitions are in order I can prepare two New lines in which I am strong. I may have a surprise for some old collectors because I can present the most superb as well as most complete collection of American Silver Money in existence This is loud talk but I can make good How many Collectors possess the 1802 Half Dime and every date and mint mark Throughout the entire series. Very few can show a unbroken series of Dimes with all known dates, mint marks and varieties. I have seen No 1894 S Dime other than mine. I know of no one having a 1873 cc Dime without arrows.
